The Hector's hull is painted green, striped with yellow. The upper works are painted a lightor green than the bull. She is commanded by Captain John Munson, an old and experispeed sailor. B. M. The Herald's special dispatch says: "Is is stated upon positive information that the rebels on the Rappahannock have been reinforced by 20,000 men, a portion of whom have passed through Richmond from the army operating on the filsek Water, below Petersburg, and others coming from Western Virginis, being a part of Gen. They captured 12 prisoners and wounded several, and brought home 15 horses and 20 head of cattle.

The following are extracts from General Inlicek's letter: HEADQUARTERS OF THE ARMY,)

Washington, Oct. 28, 1862. }
To E. M. Stenton, Secretary of War.—
Sim—In reply to the general interrogations contained in your letter of yesterday, 1 have the honor to report: First—That requisitions for supplies to the army under General McClellan are made by his staff officers on the Chiefs of Bureaus here; that is, the Quartermaster applies by his Chief Quartermaster on the Quartermaster General for commissar; supplies; by his Chief Commissary on the Commissary General, &c. No such requisitions have, to my knowledge, been made

upon the Sceretary of War, and none upor the General-in-Chief. Second.—On several occasions General McClellan has telegraphed me that his army was deficient in certain supplies.
All these telegrams were immediately referred to the heads of bureaus with orders
to report. There has not been so far as I could ascertain any neglect or delay in any department or bureau in issuing all the supplies asked for by Gen. McClell-an or by the officers of his staff. Dolays have occasionally occurred in forwarding supplies by railroad, on account of the

crowded condition of the railroad depots or of a want of a sufficient number of cars. Third-Soon after the battle of Antic-tam, General McClellan was urged to give ation of his inter mer, in fa- demand at Lightee for Ohio in order that if he moved between the onemy and Washington, the reinforcements could be sent from this place. On the first of October, finding that he proposed to operate from Harper's Ferry, I urged him to cross the river at once and give battle to the enemy, pointing to him the disad-vantage of delaying till the Autumn rains had swollen the Potomac, and impaired the roads. On the 6th of October he was peremptorily ordered to cross the Potomac and give battle to the enemy, or drive him south. I said to him "your army must move now, while the roads are in good con-

dition." It will be observed that three weeks have elapsed since that order was given.

Fourth—In my opinion there has been no such want of supplies in the army under Gen. McClellan as to prevent his compliance with my orders to advance upon the enemy. Had he moved his army to the south side of the Potemac he could have given. received his supplies almost as readily as by remaining inactive on the north side.

FROM WASHINGTON.

Washington, Nov. 10. Nothing has as yet been received, either at the Navy Department or from passen-gers arriving from Norfolk to-day, confirming the reported capture of 3,000 reliels at Plymouth, N. It is ascertained that the assignment of General Burnside to the command of the army of the Potomne is without limitation Hence, the reports that any other General will take the position recently held by Mc-Chellan, are not well founded. This, at east, is the present state of affairs.

There is nothing in the latest foreign in telligence to lead to any apprehension of trouble between the United States and for eign powers in connection with American affairs, unless it be from the persistent course of English merchants and specul

DRAFT IN WISCONSIN.

MILWAUREE, Nov. 10.
The draft in this State commenced to day, In some localities it passed off quietly, and in order. In Oscakee county the lists were seized by a mob and des troyed, and the commissioner was severel handled. He fled to this city. In Mil wankeecity there was strong indication. of trouble, complaints being made that injustice had been done in some of the wards in not giving proper credit for the volunteers. A crowd of ninth warders asembled, and marched through the city, to the number of three or four hundred in procession. The result of the matter was the draft was postponed for the present.

Abraham Lincoln and his rampont war party.

If the electioneering assurances and appeals of this party could be credited, this success of the Democrats is about equal to a declaration of pence, but they are not to be credited and we are not permitted to take that comfort to our bosoms.
